

JACKIE BATTENFIELD

is an artist known for her luminously coloured paintings and prints of natural forces. Her works explore her fascination with the most abstract qualities of landscape--storms, clouds, branches of leaves, and water ripples. "My painting practice is to work with watery pigments, I pour sweep, brush, drip, and fling layers of paint like clouds scudding across the sky. Jackie Battenfield was born in Pittsburgh, Pennsylvania in 1950, received her MFA in Visual Art from Syracuse University (1978) and a BS from Pennsylvania State University (1971). She currently lives in Williamsburg, Brooklyn. Her work is represented in more than 500 collections worldwide including the New York Public Library, NY; The Zimmerli Art Museum, Montclair Art Museum, NJ; Palmer Museum, University Park, PA; Joel and Lila Harnett Museum of Art, University of Richmond, VA; University Museum of Art, Tucson, AZ; and the United States Embassy Collections, Brazil, Cambodia, Croatia, Jamaica, and Peru.
