

GAÉTAN CARON - expresses his creativity via oil painting on canvas, digital photography and using water base mixed media on paper. These mediums pair well with Caron's ability to notice, to look and to see the raw, the real and the beautiful, especially in nature. He lives and works off-the-grid on an orchard located at the heart of the Mendocino Hills in Northern California.

Caron is also one of the two founding members behind Lost Art Salon, an art gallery in San Francisco. His artistic inspiration comes in part from his passion for modern art but also through the hands-on experience of collecting the art of various 20th Century artists.
